

ANIMATION (ANPG)

Ontario College Advanced Diploma | 6 semesters | Barrydowne

Learn how to tell dynamic and convincing 2D and 3D animated stories on screen from our talented professors who have worked on audience favourites like Tarzan, 9, and the Tom and Jerry Show.

Our program is based on the curriculum of Sheridan's renowned Animation program at the diploma level. You'll gain a working knowledge of traditional, 2D, and 3D methods of animation while becoming proficient with the 12 principles of animation. You'll develop strong and dynamic storytelling, drawing, and animation skills that are brought to life on screen through a series of projects and an eventual final film. When you graduate, you will be able to showcase convincing performances through both traditional and digital animation alongside a final production-ready portfolio.

Program Highlights

- 3 years – 6 semesters
- Delivered through a partnership with Sheridan College and is based on the curriculum of Sheridan's renowned animation program
- Focuses on both 2D and 3D animation
- Develop skills in the College's 13,900-square-foot animation studio on the latest equipment and software
- Program is more concept-based than other animation programs and still emphasizes the importance of drawing techniques
- Learn from highly-experienced faculty who have worked around the world for Disney and Amblimation

4D Learning Opportunities

In your third year, you may have the opportunity to showcase your work through:

- The School of Creative Arts and Design graduate exhibition in downtown Sudbury.
- A field trip to Toronto where you'll show off your best work to industry representatives.
