

BUSINESS ADMINISTRATION (BUAD)

Ontario College Advanced Diploma | 6 semesters | Barrydowne

Arm yourself with the necessary skills in human resources, marketing, entrepreneurship, finance, and operations in order to play an important role in any small- to large-sized business, as well as entrepreneurial ventures. In your third year, you can choose a specialization in one of two key areas: marketing or management, and will put your skills to work in a field placement in your final semester.

Program Highlights

- 3 years – 6 semesters
- Industry experienced professors provide real-world connections to learning
- Flexible learning options (traditional classrooms, online options, and virtual classes)
- Opportunities for experiential learning through clubs and competitions
- 7 to 8-week unpaid placement provides valuable real-world experience and connections to the business world
- Course options allow you to build specialized skills in marketing, management, and/or business planning
- Opportunities to earn a degree through articulation agreements with various universities
- This is a Northern College's Collaborative Delivery (<https://cambriancollege.ca/northern-colleges-collaboration>) program

Fieldwork/Placement

All Business Administration students are required to complete an unpaid placement in the final semester of the program. The placement provides an opportunity for students to put their business skills to the test in an actual workplace of their choice. This hands-on approach allows students to gain experience in their chosen field while building relationships and their resumes.
