

EARLY CHILDHOOD EDUCATION - ALTERNATE DELIVERY (ECAD)

Ontario College Diploma | 5 Semesters | Barrydowne and Distance Study

This program is offered in an alternate delivery format geared specifically to those who are currently working in the field of early childhood education (must be working for a minimum of six months full time, directly with children). This unique alternate delivery program is the only one of this type in Ontario and allows you to complete your diploma while continuing to work in the field.

As a student in Early Childhood Education at Cambrian College, you will have the opportunity to develop the knowledge and skills necessary for the field of early learning and child care. Your studies will blend the theory of child growth and development with practical application experiences in the field. Through interactive classroom experiences, you will design, plan, implement, and evaluate play-based learning for young children from birth to twelve years of age.

The program will prepare you to work with and support the diverse needs of the children and families you will encounter in your future work. You will build a foundation of understanding that children learn through play. This learning approach combined with a culturally-relevant environment will reflect that children are curious, capable, and competent.

This program includes brief, intensive, on-site learning, online learning, and facilitated learning. Course credits and/or previous work experience may qualify you to receive Cambrian course credits through our Prior Learning Assessment and Recognition process.

Program Highlights

- 5 semesters – 2 years
- Compressed course delivery
- Combination of facilitated distance study and intensive on-campus sessions
- Continue to work while completing courses
- The only alternate delivery program of this type in Ontario

Fieldwork/Placement

Field placements are an important component of the program. Since you will already have work experience coming into the program, an individualized placement plan will be developed for you.

Registration to Practice – Early Childhood Education Designation

Persons who wish to work within the College of Early Childhood Educator's scope of practice must apply for registration with the College of Early Childhood Educators. A requirement to apply for registration is possession of an Early Childhood Education diploma from an Ontario College of Applied Arts and Technology. It is the responsibility of the graduate to register with the College of Early Childhood Educators.
