

ENVIRONMENTAL MONITORING & IMPACT ASSESSMENT (EMPD)

Ontario College Graduate Certificate | 3 semesters | Barrydowne

You will gain the skills and knowledge to practice environmental and ecological monitoring, along with the ability to promote ecosystem sustainability on the watershed, atmospheric, and landscape scales.

Course content is shaped by social needs, industry expectations, and regulatory requirements. You will learn about environmental impact assessment methods, remediation technologies, monitoring programs, and environmental laws and regulations, including their application across industries and organizations involved in various areas of the environmental sector.

Our graduates can be found working at top environmental and engineering consulting firms such as Golder and Associates, Wood/AMEC and Blumetric, government ministries, as well as in smaller firms and non-governmental organizations.

Program Highlights

- 1 year – 3 semesters
- Placement in semester three
- Program housed in the LEED Gold certified Glencore Centre for Innovation
- Unique focus on the air monitoring and remediation of air, land, and water ecosystems impacted by the mining industry
- Opportunities throughout the year to earn certifications related to the environmental field (e.g. Green Check GPS certification, Ontario Benthos Biomonitoring Network training)
- Prepares you to write the Water Operator-in-Training (OIT) exam

4D Learning Opportunities

Applied research projects – Students have the opportunity to apply to be part of paid applied research teams to work on new product development alongside industry representatives and Cambrian faculty.

Program Delivery

2019-2020

This program will be delivered in the following terms:

Fall Term Start

1. SEMESTER 1 Fall 2019
2. SEMESTER 2 Winter 2020
3. SEMESTER 3 Spring 2020

For specific term start/end dates and other key dates/deadlines, please see the Academic Schedule (<http://cambriancollege.ca/apply/how-to-apply/academic-schedule>) on our website.

Program of Study

Semester 1		Credits
EMI 7100	Air Quality Assessment	3
EMI 7105	Hydrology & Water Quality Assess	3
EMI 7125	Experiment Design & Data Analysis	3
EMI 7210	Industrial Impact/Mine Reclamation	3
EMI 7235	Ecological Monitoring	3
EMI 7120	GIS Applications	3
EMI 7205	Water Remediation Techniques	3
Credits		21
Semester 2		Credits
EMI 7200	Environmental Impact Assess & Model	3
EMI 7215	Environmental Physiology	3
EMI 7225	Air Pollution Abatement	3
TEC 1013	Site Assessment and Reporting	3
GIS 7000	Geomatics	3
ECO 7000	Hydrology II	3
ECO 7240	Ecological Monitoring II	3
Credits		21
Semester 3		Credits
EMI 7300	Environmental Sampling & Analysis	8
Credits		8
Total Credits		50

Fees

Tuition and Ancillary Fees

Please see our fees page (<http://cambriancollege.ca/fees>) for the breakdown of tuition and mandatory ancillary fees by program and semester for both domestic and international students.

Books & Supplies

The cost of books and supplies for Year 1 is approximately \$700. This is the best information available at the time of publishing to the website and is subject to change.

Graduate Options

Employment Opportunities

Graduates may find employment in various environmental monitoring, auditing, and assessment roles with:

- Private environmental consulting and engineering firms
- Government (Ministry of the Environment and Climate Change, Ministry of Natural Resources and Forestry, Ministry of Northern Development and Mines)

- Municipalities (conservation authorities, water treatment facilities)
- Non-governmental organizations
- Educational institutions (university and college technicians/technologists, instructors, research assistants)
- Industry (mining, pulp and paper, logging, construction)
