

PERSONAL SUPPORT WORKER (PSPG)

Ontario College Certificate | 2 semesters | Barrydowne

An aging population, shorter hospital stays, and increased costs for long-term care are creating an increased demand for personal support workers (PSWs). Cambrian will prepare you to work as a PSW in just eight months through three clinical practicums and hands-on training in the College's state-of-the-art simulation lab and nursing lab.

You will become prepared to assist clients with activities of daily living and contribute to the quality of life of individuals who live in a facility or community setting by promoting their independence, dignity, social, emotional and physical well-being, mobility, personal appearance, comfort, and safety.

As a graduate, you may be able to bridge into Cambrian's Practical Nursing program to further enhance your career options.

Program Highlights

- 1 year – 2 semesters
- Three placements: two in a long-term care setting or hospital and another in a community setting
- Hands-on training in the 1,200-square-foot PSW simulation lab, as well as the nursing lab
- Qualified graduates can bridge into the second semester of Cambrian's Practical Nursing program

Fieldwork/Placement

You must complete 192 hours of supervised placement in an approved long-term care facility and 60 hours of precepted placement in a community home care agency.
