DEVELOPING HUMAN RESOURCES (DVHR)

This microcredential is currently under development. Please visit this page again soon for the latest updates and availability information. Thank you for your interest.

This program aims to equip the participants with the knowledge, skills, and application required to be effective in designing programs to develop skills and competencies in a learning organization, which will inspire employees to be their best.

Students will:

- Learn about the different techniques used in the recruitment and selection of the best candidate.
- Explore various training principles and the importance of developing a training program.
- Explore the technical, legislative, political, social, and personal issues surrounding occupational health and safety.
